## **ABOUT THE COMMITTEE**

After teaching-learning and research, extension activities have come to be regarded as the third important responsibility of all the higher education institutions (HEIs) in the country. The UGC policy statement on extension envisions a symbiotic relationship between the HEIs and the community where both benefit and support each other.

The word extension literally means enlargement, prolongation, additional part, etc. Extension, in the educational context, will, therefore, mean “reaching out to the wider community through a process of extending knowledge, beyond the four walls of the Institution”. Extension activities are related to rural and urban community development that grows from the needs of the people, and thus are considered a part of community education. Extension Activities Committee of the college has started working at two levels: extension education and extension services. These two levels of extension are interrelated, simultaneously maintaining their separate identity e.g. the NSS extension work provides learning experience to student volunteers and service to the community at the grassroots level.

**OBJECTIVES:** The main objectives of committee are

- To establish the necessary linkage with the community to foster social change by offering need based and relevant educational experiences that may ultimately facilitate self-reliance.
- To disseminate knowledge in different segments of population to enable individuals and groups to fill up the gaps in their intellectual growth, professional and technical competence and understanding of contemporary issues.
- To cater the needs of all sections of society especially the needs of the underprivileged sections in order to secure their effective participation in development process.
- To assist people in mobilizing available resources.
- To sensitize the faculty and the students about the needs and the problems of the community.
- To escalate faculty and student’s participation in Action Research in cooperation with government agencies.
