Guru Nanak College for Girls, Sri Muktsar Sahib

Student Satisfaction Survey (2019-20) (A Report)

Introduction:

As per the instruction of the NAAC (National Assessment and Accreditation Council), Student Satisfaction Survey Committee (SSSC) has conducted a survey through a questionnaire provided by the NAAC itself. The questionnaire consists of twenty questions on the various facets of teaching learning process. The questions range from the teaching skills of teachers like subject knowledge, communication skills, class preparation, and use of ICT tools, to their overall approach to the educational process. The given questionnaire also focuses on the overall approach of the faculty and the institution with respect to providing right environment, motivation, interpersonal relationships, feedback etc. Thus, the survey seeks to assess the satisfaction level of the students regarding the whole teaching learning process. The questionnaire concludes with three open-ended suggestions to give students the opportunity to put into their own words what they believe to be the best things that GNC has to offer, what GNC needs to improve in order to provide quality educational services, and any additional comments about their experiences at GNC.

Methodology:

The questionnaire is based on the Likert scale where the responses are recorded on a scale of 0 to 4, with the most positive response being rated as 4 and the most negative response being rated as 0. For the session 2019-20, the given questionnaire is filled through online mode by 350 students selected randomly from UG & PG classes. Random stratified survey method is applied to conduct this survey. After the survey, the mean score for each question has been calculated and then the overall mean has been arrived at.

A) Method for calculation of mean on Likert Scale:

To determine the minimum and maximum length of the 5-point Likert scale, the range is calculated by $(4 - 0 = 4)$ then divided by 5 to find five equal intervals $(4 \div 5 = 0.80)$. Further, mid value is calculated by taking average of upper and lower limits of class interval. Thus, the intervals are as follows:

Likert Scale	Class Interval	Mid-value
0	0-0.8	0.4
1	0.8-1.6	1.205
2	1.6-2.4	2.005
3	2.4-3.2	2.805
4	3.2-4	3.605

Questionnaire for the Survey:

Instructions to fill the questionnaire

- All questions should be compulsorily answered.
- Each question has five responses, choose the most appropriate one.
- The response to the qualitative question no. 21 is student's opportunity to give suggestions or improvements; she/he can also mention weaknesses of the institute here. (Kindly restrict your response to teaching learning process only)

Average Mean = Total Calculated Mean / Total number of questions

$$\begin{aligned} &= \frac{62.18}{20} \\ &= 3.11 \end{aligned}$$

Graphic representation of average mean:

Key Findings of the Survey:

- As the mean of the survey is 3.11 on the Likert scale, it implies that chiefly the students are satisfied with the teaching learning process. At the same time, it also conveys that the institute can still enhance its performance by focussing on the parameters which are below 3.
- Teacher's preparation (3.27), teacher's approach to teaching (3.21), teacher's way of illustration through examples and applications (3.28) and fairness of internal evaluation (3.18) have been rated high in the survey. Majority of respondents have expressed their satisfaction over the quantum of syllabus covered in classes (3.04). The survey also confirms the encouragement of the students by the teachers to participate in the curricular and co-curricular activities (3.19) which helped in their intellectual growth.
- Students have also acknowledged the efforts of institute and teachers in inculcating in them various skills for the preparation for the field work (3.22). This has enabled them to prepare themselves for life.

Action Taken:

In the session 2019-20, following actions were taken to increase the satisfaction level of students:

- Fine on being absent from the class without information was totally abolished from the session 2019-20. Only lecture shortage fine was to be collected.
- On the demand of the students, Training and Placement Cell included more activities in its agenda like organising seminars & visits to various job fairs.
- Last year, the parameter showing the usage of ICT tools was lowest on Likert scale i.e. 2.06. So, in the session 2019-20, ICT cell enhanced its functioning by organising workshops for teaching and non-teaching staff to train and motivate them to use ICT in discharging their respective duties in the campus. ICT infrastructure in the campus was also upgraded.
- Arrangements were made to update college official website more frequently to inform the students of the important activities/dates/events of the college.
- An INSPIRE Camp was organised by the Department of Basic Sciences to orientate young students towards research and innovative ideas.
- Co-curricular activities were increased to promote students' understanding of their society. Seminars, extension lectures and visits to villages, remote areas & old age home were organised by Extension Activities Committee.
- An auditorium was constructed as the facility for the students to organise various programs.

SSS Report 2018-19 & 2019-20: A Comparative Analysis:

As a result of action taken on the findings of SSS Report 2018-19, the satisfaction level of students according to SSS Report 2019-20 increased to 3.11 on Likert scale from 2.88 in the previous session. Given below is the comparative analysis of the various parameters of the survey for the sessions 2018-19 & 2019-20.

19.	Usage of ICT based tools while teaching	2.06	2.54
20.	Overall quality of teaching learning process	2.92	3.17

Recommendations by the Committee:

- As the parameter showing the usage of ICT tools have the lowest range on Likert scale i.e. 2.54, the college may focus on enhancing by providing free and open Wi-Fi facility in the campus.
- Student satisfaction can be further enhanced by improving the teaching and mentoring process in the tutorial meetings which will help in the cognitive, social and emotional growth of the students. (w.r.t. Q. No. 8, Mean Value: 2.95). The frequency of the meetings can be increased for the same.
- As per the suggestions and comments of the students, the college needs to focus on the availability of First Aid in the campus, RO problem and Common room.
- A few suggestions have come regarding improving the Grievance Redressal mechanism in the campus.
