Dissertation work in M.phil:

Histopathological changes induced by paper mill effluent in kidney of fresh water fish
Labeorohita (electron microscopy)

Specialization in M.Sc.:

- Cytogenetics, Genome and Genomics
- Environmental Biology and Toxicology

Seminars and workshops attended:

- Participated in one day state level Workshop on “ Education in National Education Policy-2019 ” (26 November2019)
- Participated in Two Days BRNS – IANCAS National Workshop on” Nuclear Sciences and Applications of Radioisotopes” (09 – 10 march 2019)

- Presented “Renal Changes Induced by Paper mill effluent in Fresh Water fishes” in the National Seminar on “Emerging Research Trends in Experimental Physics” (22 february 2019)
- UGC sponsored National Symposium on Environment Stress And Biodiversity Nov. 8-9, 2006
- 21st National symposium on recent advances in life sciences and environment Conservation in welfare of human society. (feb 3-5, 2006).
- UGC sponsored National seminar on "Water Conservation Need of Hour" on 28-29 sept. 2007
- State symposium on children living on the world of HIV/AIDS, 26-27 July 1999.
